Our elite high throughput model

The Ultra 8 II[®] Capsule Filling Machine

Designed for high-speed semi-automatic filling applications, the Ultra 8 II[®] offers numerous innovative operational and safety features that streamline the production process and facilitate speed to market. Combined with our unsurpassed service and ongoing technical support, you're assured of reliable performance and excellent productivity for years to come.

Specifications

Production Capacity*

Capsule Size	Speed per hour
5.....	16,000–28,000
4-3.....	21,000–33,000
2-1.....	21,000–28,000
0-0el.....	16,000–24,000
00-00el**.....	9,000–16,000
000**.....	4,500–8,000

AAA**, AA**, AAel**, A, B and C: Contact Capsugel's Technical Support Group for details.

* Rates depend on operator's skill level and density and type of material being filled.

** Conversion kit required.

Dimensions

Floor Space: 144.8 cm x 76.2 cm (1.1m²)

Size

144.8 cm x 76.2 cm x 180 cm high

Weight

680 kg (1499 lbs)

Electrical

As electrical facilities vary from country to country, please provide your specifications at time of order so that the correct motors are supplied with your machine.

Other

All orders include 1 set of change parts and choice of auger (Spade, One-Way, Two-Way, or Three-Way).

Safety Features

The unique safety features of the Ultra 8 II protect operators and mechanics in the encapsulation process.

- No pinch points in closing station
- Safety interlocks on rectifier
- Access panels
- Meets CSA/UL requirements

Operational Features

Designed to simplify the production process and improve efficiency, the Ultra 8 II offers these operational advantages:

- Self-contained horizontal hydraulic closing system that eliminates the need for compressed air
- Variable speed motors for rectification, auger and rotary table
- 3/4" solid stainless steel table top
- Internal vacuum pump
- Large-volume capsule hopper
- Automatic ring spinner
- "Pinned" change parts for quick and accurate set-up

GMP Features

The Ultra 8 II's highly advanced technology and components ensure cleanliness and protect product integrity.

- Stainless steel ring carrier, rotary table, drug hopper, table top and sheathing
- Digital readouts for repeatability
- All contact surfaces are made with FDA approved materials
- Improved cleanability

Optional Features

- Casters
- Free-standing vibrator

Support

Capsugel's highly experienced technical service team is always ready to assist customers. Offering hands-on support for shop-floor operators and managers, they can optimize production performance and help prevent problems before they arise. They will also work closely with your key production and maintenance people to identify areas of improvement and to develop machine-specific action plans.

For more information on the Ultra 8 II® Capsule Filling Machine and how it can help improve your efficiency, contact your Capsugel sales representative (see list of worldwide locations on back) or visit us on the web at www.capsugel.com.
